

## Senior iOS Developer

### Technical Skills

**Languages and Frameworks:** Swift, UIKit, SwiftUI, Objective C, Combine.  
**iOS SDKs:** CoreAnimation, CoreBluetooth, CoreLocation, CoreGraphics, CocoaPods, Swift Package Manager.  
**Design and Development Tools:** Xcode, Figma, Slack, Git, JIRA, Github, Gitlab, Artificial Intelligence, Sketch, Postman, ChatGPT.  
**Design Patterns & Methodologies:** MVVM, MVP, MV, MVC, Dependency Injection, Agile, Scrum.  
**Data Management Technologies:** Core Data, Alamofire, Firebase, REST API, GraphQL, JSON, Adaptey, AdMob.

### Work Experience

#### Senior iOS Developer - Lascade LLP, Remote (UAE)

February 2024 - Present

- Crafted multiple apps from **scratch** and **released** to the **App Store** sole handedly, reducing **time-to-delivery** by **40%**.
- Incorporated **AdMob** and **in-app purchases**, resulting in a 25% growth in overall revenue.
- Applied advanced **localisation** methods to make the app globally accessible, expanding the user **base** by **60%**.

#### iOS Developer - Fingent Global Solutions Pvt. Ltd. - Kochi, India

June 2019 - October 2023

- Achieved a **97% client satisfaction** rate by **effective communication** and meeting project milestones.
- Mentored senior and junior developers, reducing **issue resolution time** by **15%** and enhancing team productivity.
- Reviewed **100+ Pull Requests**, driving a 30% improvement in code quality.

#### iOS Developer Intern - Fingent Global Solutions Pvt. Ltd. - Kochi, India

February 2019 - June 2019

- Played a key role in developing an **eCommerce** app by fixing bugs by 50% and incorporating **payment gateway**.
- Integrated wireless devices for printing and payments using **CoreBluetooth** and WiFi, boosting transaction **speed** by **30%**.

### Projects Experience

#### [Cleaner AI](#)

- Applied the **Vision framework** and **ML** for image and video analysis, helping users find similar media **40% faster**.
- Implemented **FaceID** and **TouchID**, improving security and reducing unlocking time by 40%.

#### [Flight70](#)

- Boosted app performance by using **async/await** for task handling, resulting in a 20% improvement in task execution speed.
- Leveraged the **Combine** framework to streamline data management, achieving a 30% increase in app responsiveness.

#### [Superbook Kids Bible](#)

- Led the development from scratch in **MVVM** architecture to ensuring **modularity** and **scalability** by 50%.
- **Lowered Crash Rate by 6%** and enhanced product quality through Implementing **Firebase** Configuration.
- Engineered an **audio player** with a **visualiser** and advanced **note editor**, enabling users to **draw**, attach **stickers**, and automatically save changes, resulted in a **40% increase in user engagement** and interaction metrics.

#### [CBN Radio](#)

- Collaborated with **cross-functional teams** to reduce development cycle time by 25% while enhancing media playback stability and the interactive radio experience using **AVFoundation** and **AVKit**.
- Enhanced quality by fixing complex issues adopting **SwiftLint** for **coding standards**, resulting in a **40% decrease in errors**.
- Developed [Superbook Radio](#) and [Praise.com](#). from **CBN Radio**, to target specific users, boosting engagement by 40%.

#### [Shepherd Shield](#)

- Clustered 50+ locations within a designated area by using **MapKit** and **CoreLocation**, enhancing map readability.
- **Debugged** legacy code expertly and fixed **multi thread** issues by implementing **Grand Central Dispatch (GCD)** which improved **performance** by **25%**.

### Education

**Cochin University of Science and Technology** - Kochi, India  
Master's Degree in Mobile Phone Application Development

June 2017 - May 2019

**University of Calicut** - Kozhikode, India  
Bachelor's Degree in Software Technology

November 2014 - May 2017
